### DETAILED ACTION

1. Claims 1-23 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The claims have been amended to recite that in the step c), a solvent "that is not the same solvent of step b)". The original specification does not support that recitation, and Applicants have not indicated where support is provided for that recitation in the specification.

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. Applicant's arguments filed 10/13/05 have been fully considered but they are not persuasive. See the explanations below.

The explanations for this rejection are essentially as indicated in the previous Office Action. Applicants now take the position that the prior art does not disclose the step c) of further polymerization. However, as indicated in the last communication, the cited prior arts disclose the further polymerization of the composition to solid products having high melting points in excess of 180 degrees C, and which are useful in making films and other industrial products of high molecular weight. It is the Examiner's position that Applicants' arguments do not distinguish over the cited prior art.

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See

MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to SAMUEL A. ACQUAH whose telephone number is 571-272-1065. The examiner can normally be reached on M-TH, FRIDAYS OFF.
